

PROJECT SOLUTIONS

Diamonds are forever....

Diamond is one of the most precious materials known to man and offers a unique combination of sought-after properties – reflecting the properties of Hawker Siddeley Switchgear's Eclipse.

The Solution

The ultra-modern Diamanx Products Ltd. plant on the Isle of Man, managed and controlled by the internationally renowned De Beers Industrial Diamond Division (DEBID), is devoted to the production of large single-crystal diamonds sold to diamond toolmakers worldwide.

The technologies used are both technically demanding and capital intensive – thus, to support, they needed “state of the art” switchgear to supply their main works with continuous and reliable power.

Reflecting one of DEBID's aims of “New Product and New Product Concept Development” is Hawker Siddeley Switchgear's Eclipse.

The most advanced technology married with technical expertise: a new generation of intelligent switchgear.

Complete Customer Satisfaction

With the Eclipse, Hawker Siddeley Switchgear provided Diamanx with a highly effective solution fully meeting their specifications and long-term strategic thinking.

For more information on the Eclipse and containerised switchgear from the Hawker Siddeley Switchgear product range please visit our website at www.hss-ltd.com.
