

PROJECT SOLUTIONS

Reliability at Gatwick Airport

Power failure at an airport could have disastrous consequences. However, how do you ensure of this consistent and reliable power supply to one of two terminals at the busiest single runway airport in the world?

The Solution

Hawker Siddeley Switchgear provided the solution in a 12 panel 11kV Indoor Fixed Pattern Eclipse Switchboard. Destination: The North Terminal International Departure Lounge at BAA Gatwick Airport

The Eclipse offers Gatwick Airport the optimum degree of reliability, quality and integrity that is expected, satisfying its development strategy for the future - expansion of the highest quality.

With the Eclipse providing a constant uninterrupted supply with minimal and infrequent maintenance, London Electricity Services increased the security and

flexibility of its supply at Gatwick, reducing any risk of a power failure.

Complete Customer Satisfaction

et another example of a successful Eclipse application. From airports to hospitals, distribution to industrial, the Eclipse can provide the total solution.
