

PROJECT SOLUTIONS

Powering Shanghai's greatest landmark...

Standing at 468 meters high (1,536 feet) the Oriental Pearl TV Tower, located in Pudong Park, Shanghai, is the world's third tallest TV and radio tower. How can reliable power be guaranteed to such an important global landmark?

The Solution

The Tower holds 35, 10kV VMH Vacuum Switchgear panels from Hawker Siddeley Switchgear, supplying enough power to supply its commerce, recreational, entertainment and conference facilities. Not to forget, it's more practical usage of radio and TV transmissions.

The requirement was to provide a constant and reliable power supply to the Tower - Hawker Siddeley Switchgear's VMH Vacuum switchgear was selected and approved for being a quality and reliable product for use on such a prestigious project.

Complete Customer Satisfaction

The Tower's unique architectural design, with its rich and photographic splendor attracts hundreds of thousands of tourists each year.

Regarded as one of the most symbolic and fascinating landmarks, Hawker Siddeley Switchgear feels very honoured to be part of this phenomena.
