

## PROJECT SOLUTIONS

# Helping to transport Singapore's Inhabitants

**Known for centuries as a bridge between the East and West, Singapore is a rich and dynamic city embracing tradition with modernity. Today, it is one of the most densely populated islands in the world with over 4 million inhabitants.**

**Reflecting the modernity is its excellent rail network - considered one of the most modern rapid transit systems in the world.**

### **The Solution**

Playing an important part in making this world-beating system run smoothly is Hawker Siddeley Switchgear with its MM74 DC Switchgear.

To date, this rapid transit system is 122km long and serves over a million passengers daily across the city's major high-density travel corridors. Of this, Singapore's MRT (Mass Rapid Transit) system is 109.4km long,

and the fully automated, elevated LRT (Light Rapid Transit) system is 8km in length.

### **Complete Customer Satisfaction**

Since the first line was opened in 1988, Hawker Siddeley Switchgear has supplied over 585 DC switchgear panels to the Singapore rapid transit system..

For more information on the MM74 and other DC Switchgear from the

Hawker Siddeley Switchgear product range, please visit our website at [www.fkiswitchgear.com](http://www.fkiswitchgear.com).
