

## PROJECT SOLUTIONS

# Vauxhall Ellesmere Port

**Downtime is a major problem on any production line and can result in huge financial losses - long term reliability is therefore essential to Vauxhall Motors.**

### The Solution

The requirement was to replace existing old oil switchgear, as part of an expansion and modernisation programme at Vauxhall Motors' large manufacturing plant at Ellesmere Port.

The solution was the construction of 3 new substations, housing 61 panels of 11kV Hawkvac 15 Switchgear from Hawker Siddeley Switchgear.

Combining the very latest in modern technology and materials, thus promoting long service life and minimal maintenance, with optimum operator safety and system integrity, the Hawkvac 15 promotes continual process. Vauxhall Motors, thus getting the essential long term reliability that is required.

### Complete Customer Satisfaction

Fully meeting Vauxhall Motors' project and budget requirements, Hawker Siddeley Switchgear provided a cost effective solution without compromising on reliability, safety and experienced project support - supplying yet another high profile customer with the total solution.

For more information on the Hawkvac 15 and other products from the Hawker Siddeley Switchgear product range, please visit our website at [www.hss-ltd.com](http://www.hss-ltd.com).
